

Woven Friendship Bracelet

Cut 7 strands, about 24 inches long and tie them together with a slip knot.

Pull your thread bundle through the hole in the centre of your cardboard - with the knot right up next to the hole

Now for the fun part !

Arrange each of your 7 strands, tucking them into the slits , there should be one slit left open.

*hold your loom so the open slit is in front of you,

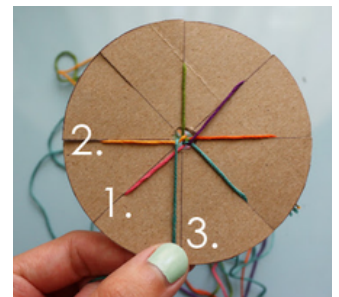

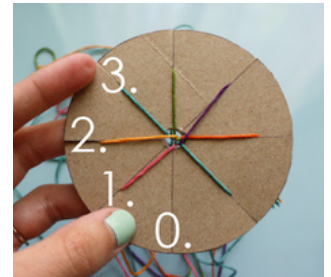

*and count one, two, three strings clockwise

*take that third string out of its slit,

*and place it in the empty slit.

turn the loom so that the empty slit is in front of you
once again,

and repeat the *starred* steps until your bracelet is long enough to wear!
